

# CAROLINE JEPPESEN

Webdeveloper

## About

Hi! I'm a frontend developer who cares about how things feel to use, not just how they work. I enjoy turning design into clean, thoughtful UI, polishing interactions, and learning fast in real projects

I'm curious, detail-oriented, and happiest when building something that feels intuitive and satisfying to use

## Contact me!

## Skills

- Vue / Nuxt
- React
- Tailwind CSS / UnoCSS
- SPA data integration (headless CMS / APIs)

## Traits

- Attention to detail
- Problem-solving
- Team Collaboration

## Experience

**Limbo** August - December 2025

### Frontend Intern

- Built and refined frontend components in Vue/Nuxt
- Styled UI using Tailwind / utility-first CSS
- Worked with headless CMS content and real data
- Collaborated with senior developers and received ongoing feedback
- Gained experience with production-level code and workflows

## Education

**Erhvervsakademi Aarhus** 2024 - 2026

### Professionsbachelor i webudvikling

- During this top-up program, I am deepening my skills in web-development. The education builds on practical experience by working with creating fullstack solutions, both in teams and individually.

**Erhvervsakademi Midtvest** 2022 - 2024

### Multimedia designer

- This education gave me a foundation in web development, design, and user experience. I learned to build user-centered solutions, and developed a strong passion for frontend development.
